

# Intercoder Agreement for Project: UnifiedDevOps Selective Coding ITE3 (JD D7 D8)

Agreement Coefficient: Krippendorff's c-Alpha-binary

## Coders

Jessica Diaz Jorge Enrique Pérez Martínez

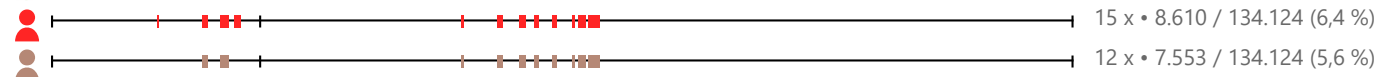

## D8 2011 Humble

## D7 2019 Luz

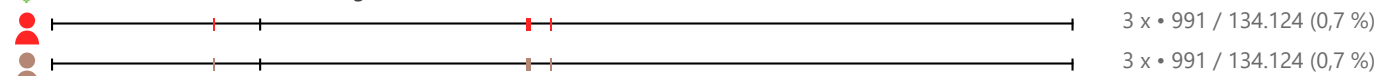

## All Documents

Semantic Domain: automated application life-cycle management, automated infrastructure management, platform builder, platform servi

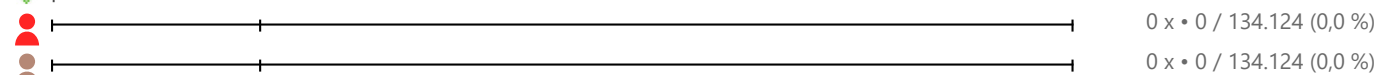

automated application life-cycle management

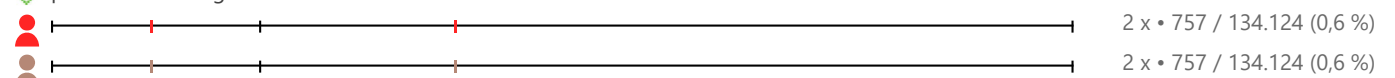

automated infrastructure management

platform builder

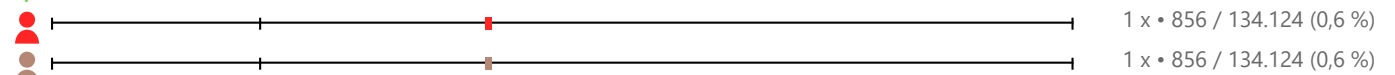

platform servicing

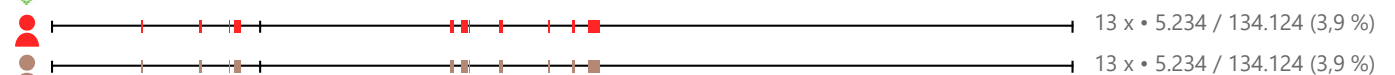

Krippendorff c<sub>α</sub>binary: 0,942

Semantic Domain: blame, collaboration, communication, cultural silos/conflicts, values & best practices, continuous improvement

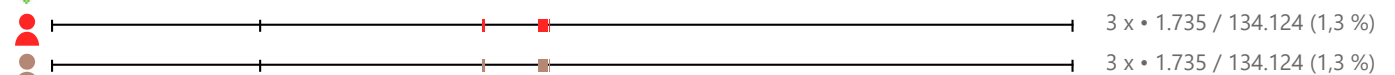

blame

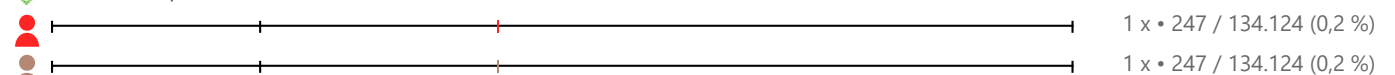

collaboration

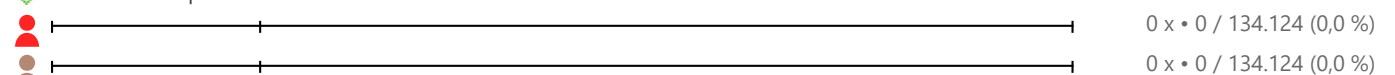

communication

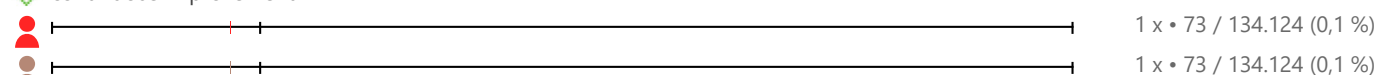

cultural silos/conflicts

values & best practices

continuous improvement

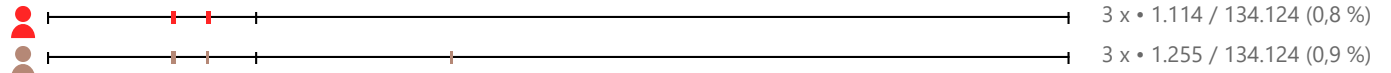

Krippendorff c<sub>α</sub>binary: 1,0

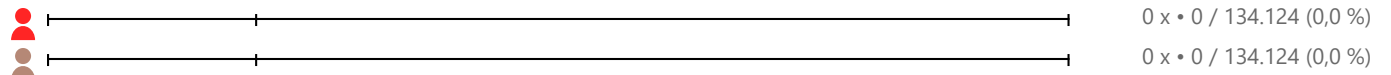

## 📁 All Documents

◇ Semantic Domain: team self-organization & autonomy, transfer of work between teams, metrics, visibility & feedback, product management

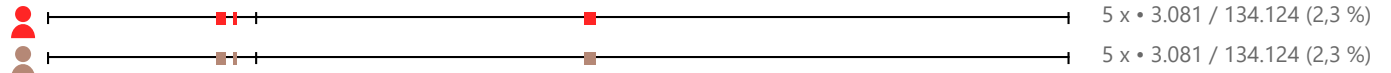

◇ team self-organization & autonomy

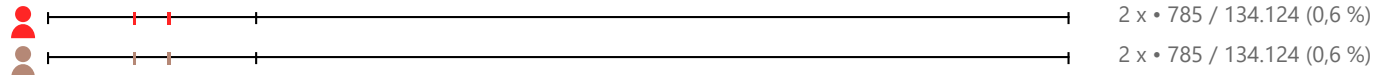

◇ transfer of work between teams

◇ metrics, visibility & feedback

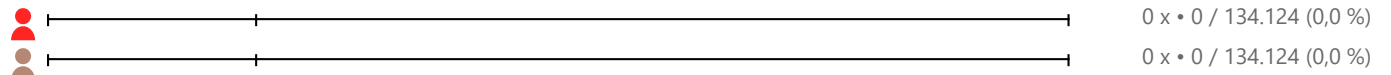

◇ product management

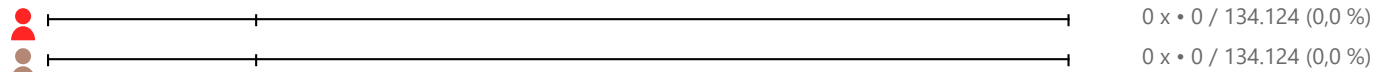

**Krippendorff  $c\alpha_{\text{binary}}$ : 0,937**

◇ Semantic Domain: devops (bridge) team, enabler (platform) team, organizational silos/conflicts

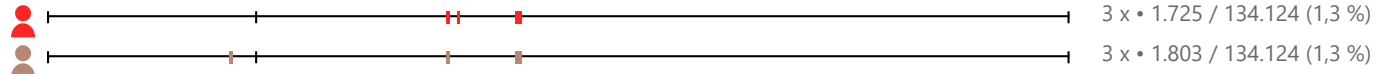

◇ devops (bridge) team

◇ enabler (platform) team

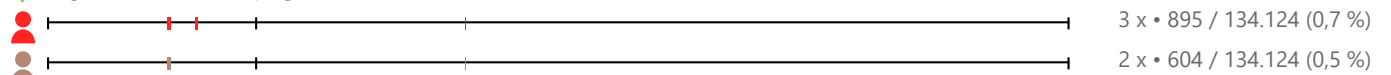

◇ organizational silos/conflicts

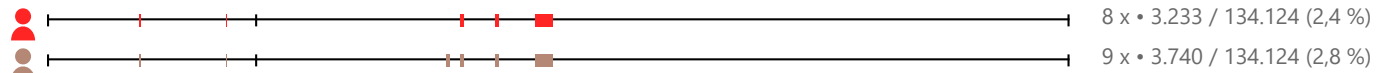

**Krippendorff  $c\alpha_{\text{binary}}$ : 0,789**

◇ Semantic Domain: alignment of dev & ops goals, knowledge sharing, responsibility/ownership sharing

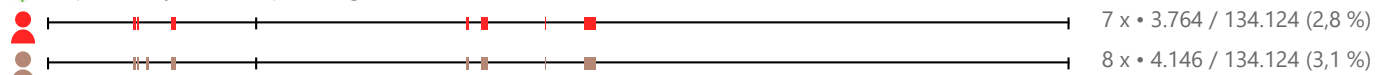

◇ alignment of dev & ops goals

◇ knowledge sharing

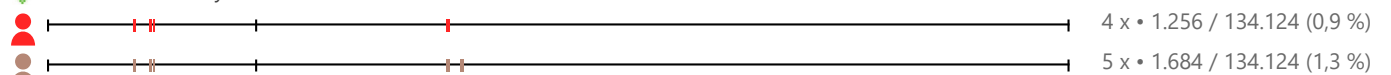

◇ responsibility/ownership sharing

**Krippendorff  $c\alpha_{\text{binary}}$ : 0,923**

◇ Semantic Domain: cross-functionality/skills, evangelization and mentoring, role definition/attributions

◇ cross-functionality/skills

## All Documents

 Semantic Domain: cross-functionality/skills, evangelization and mentoring, role definition/attributions

 training, evangelization and mentoring

  0 x 0 / 134.124 (0,0 %)

  0 x 0 / 134.124 (0,0 %)

 role definition/attributions

  0 x 0 / 134.124 (0,0 %)

  0 x 0 / 134.124 (0,0 %)
